**ANNUAL PLAN – 2014-15  
SUMMARY**

## **Annual Plan 2014–15**

The Plan budget for the year 2013-14 was approved by the erstwhile State(23 districts) Legislature for Rs. 52955.29 crore. The then Government, in the light of the general elections, introduced Vote on Account budget for 2014-15 for an amount of Rs.67933.67 crore. Government is now introducing full budget for the year 2014-15 (13 districts of Andhra Pradesh). The present budget 2014-15 assumes greater significance in the backdrop of the state bifurcation.

In the backdrop of a growth performance of 7.32% achieved during the 11<sup>th</sup> Five Year Plan (2007-12), the Andhra Pradesh state (13 districts) economy did not put up an impressive show during the 1<sup>st</sup> two years (2012-13, 2013-14) of the 12<sup>th</sup> Plan period(2012-17), recording not-too impressive growth rates of 5.58% and 6.08% respectively during these two years. The growth performance looks less impressive, viewed especially in the context of ambitious growth targets set for the 12<sup>th</sup> Five Year Plan. The State economy(13 districts), as per the Provisional Estimates grew at a growth rate of 6.08% during 2013-14.

Duly keeping the long term vision and broad development agenda in view, the priorities for the year 2014-15 have been worked out. To achieve desired outcomes, financial outlays have been allocated for various schemes proposed to be implemented under different sectors during the year 2014-15. Certain new schemes have been proposed in the current year plan budget. However, as we move along, the ideas will be firmed up and the allocations in the years to come will be much more focused and growth propelling.

Allocations under SCSP and TSP have been adhered to the norms as per the 2011 Census population percentages, 17.1% for SCSP and 5.33% for TSP as per "Andhra Pradesh Scheduled Castes Sub-Plan (SCSP) and Tribal Sub-Plan Act, 2013" for promoting accelerated development of SCs and STs in the state.

A total amount of Rs.2667016.93 lakh is provided in the plan budget for the year 2014-15 for implementing various initiatives/schemes.

## **AGRICULTURE**

Andhra Pradesh is the eighth largest state in the country covering 160.20 lakh hectares and representing 5.01% of the country's area. It has a population of 4.94 crores, ranking tenth in the country. Sustainable growth in Agriculture sector is the "need of the hour" not only for the State of Andhra Pradesh but also for the Country as a whole. It is the bed rock of the State's economy. Out of the total population of the State about 70% live in rural areas eking their livelihood from Agriculture and allied activities. It is a major source of income to the State's economy. Agriculture is the back bone of state's economy contributing about 23% to the Gross Domestic Product of the State. Andhra Pradesh is one of the progressive States in respect of agriculture development, maintaining high levels of crop production.

Andhra Pradesh has five different types of soils viz., red soils, black soils, delta alluvial soils, coastal and laterite soils saline and alkaline soils. Sand, silt, and clay are the basic types of soil and most soils are made up of a combination of these three. The texture of the soil, how it looks and feels, depends upon the amount of each one in that particular soil. There are various types of soils and the formation of soil is primarily influenced by major factors such as climate, altitude and composition of bedrock etc.

The Agriculture growth in the state continues to be the key factor for improving state's economy, accounting more than one fifth of GSDP and two - third of the population for source of livelihood. There is an urgent need to respond not only to sustain the agricultural production but also to the diversified market demands, export opportunities and environmental concerns. These challenges can be met through revamping of extension, strong Research-Extension linkage and evolving eco-friendly technology for improved crop production and so on. Major thrust is needed in the areas of seed replacement by quality seed, INM, IPM, efficient water management, organic farming, trainings, credit, Insurance Support, and ICT etc. Keeping the upcoming demands both in qualitative and quantitative terms, a growth

rate of 6 % is proposed for the 12<sup>th</sup> Five Year Plan. It is planned to achieve 116.64 lakh MTs food grains production during 2013-14.

An amount of Rs. 496639.34 lakh is provided in the budget 2014-15, for implementing various agriculture programmes / schemes in the state to the Commissioner, Agriculture. It includes funds under Normal State Plan, 13<sup>th</sup> Finance Commission Grant, Centrally Assisted State Plan schemes.

## **STATE PLAN SCHEMES**

### **CROP INSURANCE PROGRAMME:**

Crop Insurance is essentially needed to protect the farmer from natural calamities such as drought, floods etc. The “National Crop Insurance Programme” (NCIP) is being implemented in place of NAIS during Kharif 2014 season. It is consisting two components i.e., 1. Modified National Agricultural Insurance Scheme (MNAIS) and 2. Weather Based Crop Insurance Scheme (WBCIS) and Government issued notification orders for implementation of MNAIS & WBCIS during Kharif 2014 season. The main objectives of the scheme are:

- To provide a measure of financial support to the farmers in the event of crop failure from drought, cyclone and incidence of pest & diseases etc.
- To restore the credit eligibility of a farmer for the next season after a crop failure.
- To encourage the farmers to adopt progressive farming practices, high value in-puts and higher technology in Agriculture.
- To help for stabilizing farm incomes, particularly in disaster years.

**MNAIS:** Additional features & advantages under MNAIS are Coverage of Post harvest losses, Coverage of Prevented sowings, 40 – 75% premium subsidy to all the farmers irrespective of their category and Two indemnity levels: 80% & 90% (Guarantee yield)

**WBCIS:** This scheme was under implementation on Groundnut, Cotton, Redchilly, Oil palm, Sweet lime, Tomato crops in the selected Districts. This scheme aims to mitigate the hardship of the insured farmers due to the financial loss on account of anticipated crop loss resulting from the incidence of adverse deviations of weather parameters like rainfall, temperature, relative humidity, wind speed etc.

Premium subsidy only will be shared equally by the state and central governments in both the Crop Insurance Schemes as per GOI guidelines, where as all the claims will be borne by the Agricultural Insurance Company.

**INTEGRATED MICRO NUTRIENT MANAGEMENT:**

The excessive use of in-organic chemical fertilizers to increase the yields and indiscriminate use of agro-chemicals for pest and disease management over a period of years has lead to the deterioration of the soil health and made the soils unfit for cultivation.

IMNM is being promoted in a big way, which envisages soil test based judicious & balanced use of chemical fertilizer, correction of micro nutrient deficiency through Supply of Zinc Sulphate for Paddy crop on subsidy, supply of Gypsum for Reclamation of Alkaline Soils on subsidy and Strengthening of existing FCO labs and Fertilizer Coding Centre.

An amount of Rs.9039.68 lakh is provided in the budget 2014-15 under this scheme.

**FARM MECHANISATION:**

Agricultural mechanization helps in increasing production, productivity and profitability in agriculture by achieving timeliness in farm operations, bringing precision in metering and placement of inputs. Farm equipment like land preparatory particularly sowing equipment, plant protection equipment, self propelled machinery, power tillers, tractors, inter cultivation equipment etc., which are used in farming operations and post harvest equipment are being supplied under subsidy. Custom Hiring Centres were introduced in mandals for major crops grown in the State like Paddy, Maize, Ground nut, Cotton and other crops like Tobacco to make High cost machinery available to small and marginal farmers. Implement Hiring Stations are also introduced in Gram Panchayat Level to make commonly used farm equipment like land preparatory equipment, cultivators, seed drills and plant protection equipment available to all farmers.

An amount of Rs.9000.00 lakh is provided in the budget 2014-15.

**POLAMBADI:**

The main objective of the scheme is to empower the farmers to take up economical decisions by adopting practices of integrated crop management. Polambadi (Farmers Field School) emphasizes the use of eco-friendly measures (bio-agents and bio-pesticides) for control of crop pests which in turn reduce cost of cultivation and improve the quality of produce, resulting high market price and good returns. Use of chemical pesticides for control pests and diseases have been increasing day by day leading to increasing the cost of cultivation and poor quality of produce, resulting less market price and less returns. It is also causing more hazards to living entity by disturbing natural ecosystem.

An amount of Rs.111.40 lakh is provided in the budget 2014-15 under the scheme.

**EXTENSION:**

The important objectives of the scheme are Capacity Building of Farmers, Farm Women and Farmer groups through farmer trainings to upgrade skills and knowledge through transfer technologies to address the production gaps; to create a favourable attitude in farmers towards modern cultivation and maximizing their potential by rising awareness levels, pro-change attitude; sensitizing the farmers for availment of benefits given by the government like 0% interest and Pavalavaddi by the Mitra Group on crop loans and strengthening of Rythu Mitra Groups to function as the interface between the Agricultural Extension system and Farmers for transfer of technology, access to market information and other farm related advice.

An amount Rs.5365.33 lakh is provided in the budget 2014-15.

**BUILDINGS TO AGRICULTURE DEPARTMENT:**

An amount of Rs876.05 lakh is provided in the budget 2014-15 for the construction and maintenance of Buildings to the Agriculture Department.

**CROP LOANS TO FARMERS (PAVALAVADDI):**

Credit is an important input to help the farmer for successful crop production and contribute towards achieving the targeted growth in GDP. To mitigate the financial burden on the farmers, the additional relief to the farmers is being provided by allowing

interest incentive over crop loans. The crop loans are being extended to the farmers at Pavala Vaddi (at 3% interest rate). All the loanee farmers who have availed crop loans from Scheduled Commercial Banks/Cooperatives/RRBs and repaid within the due date are covered. An amount of Rs1800.00 lakh is provided in the budget 2014-15.

**INPUT SUBSIDY TO OTHER FARMERS:**

An amount of Rs.1033.29 lakh is provided in the budget 2014-15 as a measure of financial support to the other farmers in the event of yield loss occurred due to any calamity.

**SCHEME FOR DEBT RELIEF TO FARMERS:**

Our farming community has risen to the challenge of making us largely self-sufficient in providing food for growing population. However, unfortunately in our State, there has been large scale distress in the community owing to various reasons like successive natural calamities, rising cost of inputs, lack of remunerative prices and disproportionately high labour costs. In fact the level of distress is so high that several farmers, forced by circumstances took the extreme step of committing suicide. In order to address the pent-up distress and acknowledging the need to provide relief to the farming community, Government took a conscious decision, though unprecedented, by waiving loans taken by them from banks and cooperative societies up to an extent of Rs.1.50 lakh per family.

An amount of Rs. 400000.00 lakh is provided in the budget 2014-15 under the scheme.

**CENTRALLY ASSISTED STATE PLAN SCHEMES:**

**NATIONAL FOOD SECURITY MISSION (NFSM):**

It is one of the flagship programmes of the Government of India with 100% assistance with an objective of enhancing area production and productivity through cluster demonstrations in Rice, Pulses, Coarse cereals, Cotton and Mesta and also restoring soil fertility and productivity at the individual farm level and Enhancing farm level economy.

An amount of Rs.15322.67 lakh is provided in the budget 2014-15.

### **NATIONAL MISSION ON OILSEEDS & OIL PALM (NMOOP):**

The main objective is to increase production and productivity of oilseeds and Oilpalm and to bring additional area under oil palm cultivation by utilization of wastelands.

An amount of Rs.5928.10 lakh is provided in the budget 2014-15.

### **RASHTRIYA KRISHI VIKAS YOJANA (RKVY):**

Rashtriya Krishi Vikas Yojana (RKVY) an Additional Central Assistance scheme (100% GOI grant) intended to develop Agriculture and Allied Sectors in holistic manner to achieve the targeted annual growth. The major objectives are (i) to incentivize the states so as to increase public investment in Agriculture and Allied sectors and (ii) to provide flexibility and autonomy to the States for planning and executing programmes for Agriculture and Allied sector schemes etc. Other objectives are to provide flexibility and autonomy to the States in the process of planning and executing programmes and to ensure that the local needs/crops/priorities are better reflected in the agricultural plans of the states.

The departments covered in RKVY scheme are Agriculture & allied sectors such as Agriculture, Horticulture, Animal Husbandry, Fisheries, Dairy Development, ANGRAU, Horticultural University, Veterinary University, APAGROS, Sericulture, A.P. MARKFED & Food Processing (Industries) etc.

It is proposed to give major thrust to farm mechanization as the availability of farm labour and escalated labour cost became major concerns for the present day farming.

There is a need for providing more mechanized farm equipments to the farmers so that they can undertake timely Agriculture activities. As per the requirement of the farmers, Equipments such as Tractors, Tillers, Custom Hiring Centers for High Cost Machinery like Multi Crop Threshers, Maize Sheller, Rotovators and combined harvesters etc., will be made available with the subsidy up to 50%, not exceeding Rs. 50,000/-.

It is proposed to supply seeds to all the categories of farmers and they will be facilitated to buy quality seeds with 50% subsidy and will be limited to the farmers having 2 hectares of Land.

An important programme i.e., Bhuchetana Programme is being implemented through

technical assistance of ICRISAT, with an objective to increase the crop productivity by at least 20% during 2011-12 to 2016-17 through Technological inputs and supply of Micro Nutrients.

It is proposed to expand area under Organic Farming through Organic Farmers Association and to provide training, skill development and marketing assistance including organizing trade fairs.

An amount of Rs.23707.00 lakh is provided in the budget 2014-15 to implement RKVY projects.

**NATIONAL MISSION ON AGRICULTURAL EXTENSION & TECHNOLOGY (NMAET):**

It consists of 4 sub missions viz., Sub Mission on Agriculture Extension, Sub Mission on Seed & Planting Material, Sub Mission on Agricultural Mechanization and Sub Mission on Plant Protection & Plant Quarantine. An amount of Rs.6221.23 lakh is provided in the budget 2014-15 for four Sub Missions.

**SUB MISSION ON AGRICULTURE EXTENSION (SMAE):**

The scheme consists of trainings, exposure visits, kisan melas, farmer scientists interaction, capacity building of FIGs, innovative activities etc.

**SUB MISSION ON SEED & PLANTING MATERIAL (SMSP):**

The scheme consists of strengthening of seed testing labs, seed farms, certified seed production through SVP, transport subsidy, seed storage, seed processing plants etc.

**SUB MISSION ON PLANT PROTECTION & PLANT QUARANTINE (SMPP):**

The sub mission intends to implement rodent control programme and strengthening of Pesticide testing labs.

**NATIONAL MISSION FOR SUSTAINABLE AGRICULTURE (NMSA):**

It consists of four sub missions viz., Rainfed Area Development Programme, Soil Health Management, On Farm Water Management and Climate Change and Sustainable

Agriculture: Monitoring, Modeling and Networking. An amount of Rs.16971.00 lakh is provided in the budget 2014-15 for four Sub Missions.

**RAINFED AREA DEVELOPMENT PROGRAMME (RADP):**

The scheme intends to take up watershed plus approach focusing on location specific farming systems; resource conservation technologies under the scheme.

**SOIL HEALTH MANAGEMENT (SHM):**

The scheme intends to strengthen the existing soil testing labs both mobile and static labs.

**ON FARM WATER MANAGEMENT (OFWM):**

**Andhra Pradesh Micro irrigation Project (APMIP)** is now re-designated as On Farm Water Management (OFWM) and implemented under NMSA and it is implemented by Horticulture department in the state.

**CLIMATE CHANGE AND SUSTAINABLE AGRICULTURE: MONITORING, MODELING AND NETWORKING (CCSAMMN):**

Dissemination of climate change related information and knowledge by way of piloting climate change adaptation / mitigation research / model projects in the domain of climate. Agriculture Department deals with the components of RAD, SHM and CCSAMMN. Horticulture Department deals with the Micro Irrigation programme under On Farm Water Management (OFWM).

**FINANCE COMMISSION GRANTS (SEEDS BANK SCHEME):**

This scheme is being implemented by the Andhra Pradesh State Seeds Development Corporation limited, Hyderabad. The Corporation proposes to produce certified seeds of Paddy, Jowar, Maize, Redgram, Greengram, Blackgram, Groundnut, Gingelly, Sunflower and Ragi by means of varietal replacement. The varietal replacement in the above crops is planned to be increased by about 4% over previous year by taking up multiplication of new varieties. The Corporation will make available and store 75,000 quintals of certified seeds of different crops in addition to the Foundation seed proposed as above totaling to 1.00 lakh quintal per annum for meeting any contingency. The

Corporation proposed to cover the cost of Breeder seeds which are of State releases and cost of Foundation seeds for the same varieties only under the Scheme.

The Seed Growers will be encouraged to produce newly released varieties and multiply breeder to foundation seeds. Towards incentive for taking up foundation seed production crop seeds such as Groundnut and Pulses have been considered to give an emphasis for increased production of newly released varieties and replace old varieties which are not in demand and low yielding.

With a view to encourage seed producers to take up production of new release varieties / hybrids and improve seed replacement, compensation will be provided in case of failure due to synchronization problem in hybrids and loss of yield below 50% of the average yield.

#### **QUANTITATIVE BENEFITS TO THE FARMERS:**

- Seed growers are assured of required seed availability in the event of any contingency.
- By giving additional incentive by reduction of rates, Corporation is assured of improving the varietal replacement as per targets.
- By taking up seed production of new varieties and hybrids as compared to traditional crops, seed growers will be benefited by reduced input seed cost.
- Seed growers are protected against loss in yield while taking up new varieties by way of assured compensation.
- Newly released varieties will be tolerant to pest attack and other diseases, as lot of research will go on into the varietal release and only improved varieties will be released.
- Seed growers will be benefited with increased remuneration due to production of newly released varieties as against the age-old / traditional varieties which give higher yields.
- Corporation is protected against coverage for loss on any leftover seeds that may be sold as non-seed to an extent of 10% of the seed produced and stored under the scheme.
- Seed production is made attractive to the growers than commercial production with higher procurement price, increased yields, compensation in case of yield loss etc.

An amount of Rs.1249.00 lakh is provided in the budget 2014-15 for implementation of the programme.

## **HORTICULTURE**

A total amount of Rs.3758.15 lakh is provided in the budget 2014-15 towards implementation of various activities under Horticulture.

Horticulture is a significant and upcoming sector in the country and the state as well. Horticulture has proved to be the best diversification option for agricultural land use, because of assured and the remunerative returns to the farmers. This sub sector of the Agriculture sector, with its consistently growing contribution to the GSDP has started gaining ground in the recent past. Horticulture over the years has emerged as an indispensable part of Agriculture providing opportunities for sustaining large number of agro-industries which have created employment opportunities to semi-skilled and unskilled labour force.

Technological innovations have helped Horticulture sector empower people not only by improving economic conditions of those subsisting on it but also catering to their nutritional security that eventually is transforming agrarian economy. The fact that horticulture has moved from rural areas to a commercial activity which has encouraged private investment is one of the most significant development in the last decade. Transition from traditional outlook to a trade oriented outlook has brought a perceptible change in the concept of Horticulture development in the state. The Government of Andhra Pradesh has emphasized Horticulture development in view of increased public investment in the sector. The focus in recent years has been on increasing production and productivity of horticulture crops, development of infrastructure for post harvest management and providing access to domestic and export markets. Horticulture has been identified as one of the “focus areas” for development of the state. In Andhra Pradesh, horticulture is a significant contributor to the state economy.

Andhra Pradesh ranks 1<sup>st</sup> in the production of Citrus, Spices, Oil Palm, Tomato, Chillies and Turmeric; 2<sup>nd</sup> in the production of Mango, Cashew; 3<sup>rd</sup> in production of loose flowers and 4<sup>th</sup> in the production of Banana (NHB data base 2011). The area under Horticulture has increased from 3.70 lakh ha. in 1982 to 27.01 lakh ha. by 2012-13 and as per advance estimates it stood at 19.62 lakh ha. in 2013-14.

## **STATE PLAN**

### **PROMOTION OF HORTICULTURE ACTIVITIES:**

Under state plan schemes, the Horticulture department made considerable efforts to bring new area in to cultivation. The interventions include supply of plastic crates to help the farmers for better harvesting of produce, supply of poly sheets on 50% subsidy to improve the quality of the produce by facilitating drying of spices in a better environment and reducing Post Harvest Losses and promoting flower cultivation with F1 and elite seed material by giving incentives to the small and marginal woman farmers etc.

### **NATIONAL HORTICULTURE MISSION (NHM):**

The NHM in Andhra Pradesh was launched on 3rd November, 2005, under National Horticulture Mission. The scheme is being operated with the financial assistance of GOI (85%) and State (15%) with the following main objectives:

- To provide holistic growth of the Horticulture sector through an area based regionally differentiated strategies which include research, technology promotion, extension, post harvest management, processing and marketing, in consonance with comparative advantage of each State / Region and its diverse agro-climatic feature;
- To enhance horticulture production, improve nutritional security and income support to farm households;
- To establish convergence and synergy among multiple on-going and planned programmes for Horticulture development;
- To promote, develop and disseminate technologies, through a seamless blend of traditional wisdom and modern scientific knowledge; and
- To create opportunities for employment generation for skilled and unskilled persons, especially unemployed youth.

Focus is on crops such as Mango, Sweet, Orange, Sapota, Pomegranate, Banana, Papaya, Cashew, Flowers and Spices etc.

An amount of Rs.3480.00 lakh is provided in the budget 2014-15 under National Horticulture Mission.

### **MISSION FOR INTEGRATED DEVELOPMENT OF HORTICULTURE (MIDH):**

The Cabinet Committee on Economic Affairs (CCEA) has approved the implementation of Mission for Integrated Development of Horticulture (MIDH) during XII plan period (subsuming interventions under NHM, HMNEH, NBM, NHB, CDB & CIH) with revised cost norms and pattern of assistance to be effective from April 1<sup>st</sup> 2014. MIDH will work closely with National Mission on Sustainable Agriculture (NMSA) towards development of Micro-Irrigation for all Horticulture crops and protected cultivation on farmers' field.

The important interventions are area expansion programmes for horticulture crops, rejuvenation of old and senile orchards in the traditional area of the state (restricting mainly to canopy management), protected cultivation of Flowers & Vegetables, assistance for green houses and Plant Material etc.

### **POST HARVEST MANAGEMENT IN HORTICULTURE CROPS:**

There is an enormous increase in production & productivity of fruits, vegetables, spices & flowers. Around 30-35% of horticultural produce is being wasted due to improper post harvest management. To avoid the post harvest losses, a chain of cold storages, processing facilities, and marketing facilities need to be created. To save the valuable Horticulture produce from post harvest losses, the Department is promoting large no. of Multi chambered, Cold Storage units, Ripening Chambers, Refer vans, Pack houses, with the financial assistance of National Horticulture Mission during 12<sup>th</sup> year plan.

Cold Storage unit provide a vital link between the production and marketing of Agriculture & Horticulture produce. It helps in storing the horticulture produce during glut, and making them available in off season with least degradation in quality. At present there are only 59 No. of cold storage units are available in A.P for handling Agriculture & Horticulture produce.

Ripening chambers are used especially for Mango & Banana for ethylene treatment for uniform ripening of fruits instead of ripening of fruits by using carbide which is poisonous. Pack Houses are mainly used for all Horticulture produce for pre-cooling, grading, packing and transport to mandis to reduce post harvest losses and to increase

value addition. Size of each pack house should be 600 cft the unit cost is 4 lakhs, 50% (2.0 Lakhs) subsidy will be given to the horticulture growers.

The important interventions under the Post Harvest Management are establishment of cold storages for fruits & vegetables that are readily stored under cold storages are potato, grapes, tamarind, citrus, pomegranate, pine apple, chillies, apple and cut flowers etc., establishment of ripening chambers, pack houses etc.

The existing NMMI (APMIP) Scheme is implemented up to 2013-14 was subsumed in to NMSA from 2014-15 onwards.

#### **NATIONAL OILSEED AND OILPALM MISSION (NOOM):**

Andhra Pradesh is the unique state in the world, which is cultivating the Oil Palm under irrigated conditions, unlike rain fed cultivation in major oil palm producing countries of the world.

Govt. of India is traditionally deficit in edible oils with a wide gap between supply and demand. India is importing huge stocks of vegetable oils every year by spending Rs.46,000 crores. The productivity of our oilseed crops is very low, these oil seed crops are mainly grown under rain fed conditions and there is a huge degree of fluctuation in oil production. The Vegetable Oil production in country is 8.65 million tons against the demand of 14.26 million tons. Hence still there is a shortage of 5.61 million tons of edible oils. Hence cultivation of oilpalm was taken up to fill the gap and to reduce the

imports. The oil palm development programme is being implemented in 7 coastal districts, Ananthapuram in Rayalaseema region and 14 oilpalm companies with 250 MTs/Hour are engaged in extraction of crude palm oil from fresh FFBS. West Godavari district has highest area under Oilpalm i.e., 64,370 Ha.

Govt. of India have introduced National Mission for Oilseeds and Oilpalm under Mini Mission-II from 2014-15 in place of OPDP (ISOPOM). Under this programme Government is providing subsidies for plant material, cultivation assistance, vermicompost, bore wells, drip irrigation, harvesting tools. NMOOP envisages increasing production of vegetable Oils sourced from Oil seeds, Oil Palm and TBOs from 7.06 million tonnes to 9.51 million tonnes by the end of XII Plan (2016-17). With the above objective Govt. of India have launched Mini Mission –II for National Mission for Oil seed and Oil Palm from 2014-15. It is implemented 75:25 Central & State share basis. It is proposed to take up fresh Plantation along with other components such as plant material, cultivation assistance, vermicompost, bore wells, drip irrigation, harvesting tools.

- To achieve the goal of reducing the yield gaps in important crops, through focused interventions.
- To maximize returns to the farmers in Agriculture and allied sectors.
- To bring about quantifiable changes in the production and productivity of various components of Agriculture and allied sectors by addressing them in a holistic manner

The funds will be received from the nodal department i.e. Agriculture under the scheme.

## **ANIMAL HUSBANDRY**

Animal Husbandry being an important sub-sector to Agriculture is rapidly making inroads to the rural economy. Livestock sector apart from contributing to the state economy in general and to agricultural economy in particular, also provides employment generation opportunities, asset creation, coping mechanism against crop failure and social and financial security. Livestock is the main source of animal protein for the population.

Economic support programs like distribution of milch animals, sheep and poultry units have enormously helped the rural masses in bridging their income gaps. Besides conserving domestic biodiversity, it is a means of producing food in dry lands without depleting ground water resources. Dependability even during drought times is one aspect that makes the Livestock sub-sector more lucrative and progressive.

The activities of the Animal Husbandry Department have been oriented towards health of livestock and increased production of milk, meat and eggs and to provide adequate bullock power for agricultural operations. The schemes of the Animal Husbandry Department have been formulated in pursuance to the well-laid National policies to improve the Livestock production, to fight protein hunger and to improve nutritional standards of human population and also provide technical support for the maintenance and improvement of livestock.

A total amount of Rs.19600.00 lakh is provided in the budget 2014-15 towards implementation of various activities under the Animal Husbandry department.

**SUPPLY OF CALF FEED PROGRAMME:**

Every year, a good number of high productive calves are being produced through artificial insemination. But due to financial constraints, farmers are unable to rear the female calves properly and convert them into productive livestock. In the late 70's and early 80's, there was calf feed subsidy programmes under Special Livestock Breeding Programme (SLBP) in which calf feed was given on subsidy basis to the farmers who possess high productive female calves. This had given good impetus in creating milch animal replacement stock.
