ANNUAL PLAN 2015-16 SUMMARY

Annual Plan 2015-16

The present Annual Plan lays the foundation for long term strategies being envisioned for achieving 'Swarnandhra Pradesh' by 2029.

Despite deficit rainfall of over 36% and huge revenue deficits, the economy of Andhra Pradesh state has shown resilience, especially in the agriculture sector. As per the advance estimates, the GSDP has grown at 7.21% during 2014-15 over last year, with all the sectors of the economy, namely Agriculture(5.90%), Industries(5.25%) and Services sector (8.48%) showing encouraging growth performance.

The priorities of the government in the present budget are in broad consonance with the state's development Vision. Allocations have been made to various departments, keeping in view the outcomes envisaged under various missions. Certain new schemes have been proposed under the current year budget. However, as we move along, the ideas get firmed up to prioritize the allocations in a such way that double digit growth becomes a reality.

Adequate care has been taken to ensure that allocations are earmarked under Scheduled Castes Sub-Plan(SCSP) and Tribal Sub-Plan(TSP) as per the respective population percentages of 2011 Census.

Among the sectors, Rural Development, Welfare of SCs, STs, BCs and Minorities and Irrigation & Flood Control are the highest stakeholders in the plan budget, with more than 50% of the total plan budget accounted by these sectors alone. Social sector gets due preference in this budget.

A total of Rs. 3440984.70 lakhs is provided in the plan budget for the year 2015-16 to implement various schemes/initiatives.

ECONOMIC SERVICES

AGRICULTURE

Sustainable growth in agriculture sector is the “need of the hour” not only for the State of Andhra Pradesh but also for the Country as a whole. It is the bed rock of the State’s economy. Out of the total population of the State about 62% live in rural areas eking their livelihood from Agriculture and allied activities. It is a major source of income to the State’s economy. Agriculture is the back bone of state’s economy contributing about 28% to the Gross Domestic Product of the State. Andhra Pradesh is one of the progressive States in respect of agriculture development, maintaining high levels of crop production.

Andhra Pradesh has five different types of soils viz., red soils, black soils, delta alluvial soils, coastal and laterite soils saline and alkaline soils. Sand, silt, and clay are the basic types of soil and most soils are made up of a combination of these three. The texture of the soil, how it looks and feels, depends upon the amount of each one in that particular soil. There are various types of soils and the formation of soil is primarily influenced by major factors such as climate, altitude and composition of bedrock etc.

The Agriculture growth in the state continues to be the key factor for improving state’s economy, accounting more than one fifth of GSDP and two - third of the population for source of livelihood. There is an urgent need to respond not only to sustain the agricultural production but also to the diversified market demands, export opportunities and environmental concerns. These challenges can be met through revamping of extension, strong Research-Extension linkage and evolving eco-friendly technology for improved crop production and so on. Major thrust is needed in the areas of seed replacement by quality seed, INM, IPM, efficient water management, organic farming, trainings, credit, Insurance Support, and ICT etc. Keeping the upcoming demands both in qualitative and quantitative terms, a growth rate of 6 % is proposed for the 12th Five Year Plan.

An amount of Rs.97147.16 lakh is provided in the budget 2015-16 for implementing various agriculture programmes / schemes in the state to the Commissioner, Agriculture. Of which Rs.51321.11 lakh as Centrally Assisted State Plan schemes.

and Rs.45826.05 lakh as State Schemes.

STATE SCHEMES

INTEGRATED MICRO NUTRIENT MANAGEMENT:

Analysis of soil samples has indicated that 40-49% of soils in Andhra Pradesh are potentially deficient in Zn, 12% in Fe, 5% in Mn, 3% in copper (Cu), 33% in boron (B) and 11% in molybdenum (Mo). Basal application to soil and/or foliar sprays of Zn, B and Mo., and foliar sprays of Fe and Mn have been recommended as the most suitable methods for correcting such deficiencies which has shown significant effect on crop yields.

It has been observed by preliminary soil mapping exercise undertaken by Department of Agriculture with ICRISAT/APSAC large scale deficiencies of multiple nutrients such as micro and secondary nutrients like Zinc, Boron, Sulphur, Iron and in some case copper are recorded below critical limits which are reducing the responses to added N,P,K nutrients also. In most cases, farmers attribute the deficiencies caused by micronutrients to macronutrients and in turn add more quantities of N,P,K fertilizers to soils which do not result in increased crop yields.

An amount of Rs.9095.00 Lakhs is provided in the budget 2015-16.

FARM MECHANIZATION:

Agricultural mechanization helps in increasing production, productivity and profitability in agriculture by achieving timeliness in farm operations, bringing precision in metering and placement of inputs. Farm equipment like land preparatory particularly sowing equipment, plant protection equipment, self propelled machinery, power tillers, tractors, inter cultivation equipment etc., which are used in farming operations and post harvest equipment are being supplied under subsidy. Custom Hiring Centres were introduced in mandals for major crops grown in the State like Paddy, Maize, Ground nut, Cotton and other crops like Tobacco to make High cost machinery available to small and marginal farmers. Implement Hiring Stations are also introduced in Gram Panchayat Level to make commonly used farm equipment like land preparatory equipment, cultivators, seed drills and plant protection equipment available to all farmers.

An amount of Rs. 14163.25 lakh is provided in the budget 2015-16.

POLAMBADI:

The main objective of the scheme is to empower the farmers to take up economical decisions by adopting practices of integrated crop management. Polambadi (Farmers Field School) emphasizes the use of eco-friendly measures (bio-agents and bio-pesticides) for control of crop pests which in turn reduce cost of cultivation and improve the quality of produce, resulting high market price and good returns. Use of chemical pesticides for control pests and diseases have been increasing day by day leading to increasing the cost of cultivation and poor quality of produce, resulting less market price and less returns. It is also causing more hazards to living entity by disturbing natural ecosystem.

An amount of Rs.146.60 lakh is provided in the budget 2015-16.

EXTENSION:

The important objectives of the scheme are Capacity Building of Farmers, Farm Women and Farmer groups through farmer trainings to upgrade skills and knowledge through transfer technologies to address the production gaps; to create a favourable attitude in farmers towards modern cultivation and maximizing their potential by rising awareness levels, pro-change attitude; sensitizing the farmers for availment of benefits given by the government like 0% interest and Pavala Vaddi by the Mitra Group on crop loans and strengthening of Rythu Mitra Groups to function as the interface between the Agricultural Extension system and Farmers for transfer of technology, access to market information and other farm related advice.

An amount of Rs.8121.20 lakh is provided in the budget 2015-16.

CONSTRUCTION OF BUILDINGS :

An amount of Rs.2000.00 lakh is provided in the budget 2015-16 for the construction of Buildings to the Agriculture Department.

CROP LOANS TO FARMERS (PAVALA VADDI):

Credit is an important input to help the farmer for successful crop production and contribute towards achieving the targeted growth in GDP. To mitigate the financial burden on the farmers, the additional relief to the farmers is being provided by allowing interest incentive over crop loans. The crop loans are being extended to the farmers at Pavala Vaddi (at 3% interest rate). All the loanee farmers who have availed crop loans

from Scheduled Commercial Banks/Cooperatives/RRBs and repaid within the due date are covered.

An amount of Rs.1000.00 lakh is provided in the budget 2015-16.

POLAMPILUSTHONDI & CHANDRANNA RYTHU KSHETRALU:

Polampilusthondhi, an innovative programme was inaugurated by the Hon'ble Chief Minister at Chodavaram (M&V) of Visakhapatnam district on 08 August 2014 to enhance the outreach and to provide extension services to the doorstep of the farmers for increasing productivity in agriculture and allied sectors and to increase income of the farmers.

Chandranna Rythu Kshetram is the new demonstration programme implemented from Rabi 2014-15 in farmers' fields on 10 ha in each village to promote best agronomic and farm management practices for achieving increase in productivity.

An amount of Rs.1000.00 lakh is provided in the budget 2015-16.

SOIL AND CONSERVATION PROGRAMMES:

An amount of Rs.3000.00 lakh is provided in the budget 2015-16 under the scheme.

STORAGE, INTEREST AND OTHER RELATED COSTS OF FERTILIZER BUFFERS:

An amount of Rs.6000.00 lakh is provided in the budget 2015-16 under the scheme.

DEVELOPMENT OF HORTICULTURE COLLEGES:

An amount of Rs.1000.00 lakh is provided in the budget 2015-16 under the scheme.

CENTRALLY ASSISTED STATE PLAN SCHEMES

NATIONAL FOOD SECURITY MISSION (NFSM):

It is one of the flagship programmes of the Government of India with 100% assistance with an objective of enhancing area production and productivity through cluster demonstrations in Rice, Pulses, Coarse cereals, Cotton and Mesta and also restoring soil fertility and productivity at the individual farm level and Enhancing farm level economy.

An amount of Rs. 7881.20 Lakhs lakh is provided in the budget 2015-16.

NATIONAL MISSION ON OILSEEDS & OIL PALM (NMOOP):

The main objective is to increase production and productivity of oilseeds and Oilpalm and to bring additional area under oil palm cultivation by utilization of wastelands. It has two sub-missions i.e., Mini Mission (MM-I) on Oilseeds and Mini Mission (MM-II) on Oilpalm.

An amount of Rs.1500.50 Lakhs is proposed during 2015-16 for implementing NMOOP two sub-missions.

MINI MISSION-I (MM-I) ON OILSEEDS

The Mini Mission on Oilseeds being implemented in 13 districts envisages increase in production of vegetable oils sourced from Oilseeds. The main components of MM-I includes seed component, production component and transfer of technology. The scheme is funded by the Centre and State at the ratio of 75:25 respectively.

MINI MISSION-II (MM-II) ON OILPALM

The domestic consumption of edible oils has increased substantially during the last few years and has touched the level of 18.90 million tonnes in 2011-12 and is likely to increase further. With per capita consumption of vegetable oils at the rate of 16 Kg/ Year/ Person for a projected population of 1276 million, the total demand for vegetable oils is likely to touch 20.4 million tonnes by 2017.

As substantial portion of our requirement of edible Oil is met through import of palm oil from Indonesia and Malaysia. It is therefore necessary to exploit domestic resources to maximize production to ensure edible oil security for the Country. Oil Palm is comparatively a new crop in India and is the highest vegetable oil yielding perennial crop.

In A.P, the Oilpalm area expansion is being implemented in the 225 potentially identified mandals of 8 districts. Seven coastal districts i.e., Srikakulam, Vizianagaram, Visakhapatnam, East Godavari, West Godavari, Krishna, Nellore and Anantapur in Rayalaseema region and 13 processing units with 240 MTs/Hour are engaged in extraction of crude palm oil from Oilpalm Fresh Fruit Bunches (FFBs). So far, an area of 1.35 lakh Ha was covered in Andhra Pradesh with highest area under Oilpalm i.e., 69,998 Ha in West Godavari district and it is implemented by the horticulture department.

RASHTRIYA KRISHI VIKAS YOJANA (RKVY):

Rashtriya Krishi Vikas Yojana (RKVY) an Additional Central Assistance scheme (100% GOI grant) intended to develop Agriculture and Allied Sectors in holistic manner to achieve the targeted annual growth. The major objectives are (i) to incentivize the states so as to increase public investment in Agriculture and Allied sectors and (ii) to provide flexibility and autonomy to the States for planning and executing programmes

for Agriculture and Allied sector schemes etc. Other objectives are to provide flexibility and autonomy to the States in the process of planning and executing programmes and to ensure that the local needs/crops/priorities are better reflected in the agricultural plans of the states.

The departments covered in RKVY scheme are Agriculture & allied sectors such as Agriculture, Horticulture, Animal Husbandry, Fisheries, Dairy Development, ANGRAU, Horticultural University, Veterinary University, APAGROS, Sericulture, A.P. MARKFED & Food Processing (Industries) etc.

It is proposed to give major thrust to farm mechanization as the availability of farm labour and escalated labour cost became major concerns for the present day farming.

There is a need for providing more mechanized farm equipments to the farmers so that they can undertake timely agriculture activities. As per the requirement of the farmers, equipments such as Tractors, Tillers, Custom Hiring Centers for High Cost Machinery like Multi Crop Threshers, Maize Sheller, Rotovators and combined harvesters etc., will be made available with the subsidy up to 50%, not exceeding Rs. 50,000/-.

It is proposed to supply seeds to all the categories of farmers and they will be facilitated to buy quality seeds with 50% subsidy and will be limited to the farmers having 2 hectares of Land.

An important programme i.e., Bhuchetana Programme is being implemented through technical assistance of ICRISAT, with an objective to increase the crop productivity by at least 20% during 2011-12 to 2016-17 through Technological inputs and supply of Micro Nutrients. It is proposed to expand area under Organic Farming through Organic Farmers Association and to provide training, skill development and marketing assistance including organizing trade fairs.

An amount of Rs.17546.53 lakh is provided in the budget 2015-16 to implement RKVY projects.

NATIONAL MISSION ON AGRICULTURAL EXTENSION & TECHNOLOGY (NMAET)

It consists of 4 sub missions viz., Sub Mission on Agriculture Extension, Sub Mission on Seed & Planting Material, Sub Mission on Agricultural Mechanization and Sub Mission on Plant Protection & Plant Quarantine.

An amount of Rs.4609.70 lakh is provided in the budget 2015-16 for four Sub Missions.

The scheme consists of trainings, exposure visits, kisan melas, farmer scientists interaction, capacity building of FIGs, innovative activities etc.

SUB MISSION ON SEED & PLANTING MATERIAL (SMSP)

The scheme consists of strengthening of seed testing labs, seed farms, certified seed production through SVP, transport subsidy, seed storage, seed processing plants etc.

SUB MISSION ON AGRICULTURAL MECHANIZATION (SMAM)

The scheme is to provide financial assistance for procurement of Agricultural machinery and equipment.

SUB MISSION ON PLANT PROTECTION & PLANT QUARANTINE (SMPP)

The sub mission intends to implement rodent control programme and strengthening of Pesticide testing labs.

NATIONAL MISSION FOR SUSTAINABLE AGRICULTURE (NMSA):

An amount of Rs.2486.28 lakh is provided in the budget 2015-16 for implementing various activities under the scheme.

NATIONAL MISSION FOR SUSTAINABLE AGRICULTURE (ON FARM WATER MANAGEMENT (OFWM))

Andhra Pradesh Micro irrigation Project (APMIP) is now re-designated as On Farm Water Management (OFWM) and implemented under NMSA and it is implemented by Horticulture department in the state.

An amount of Rs.14406.90 lakh is provided in the budget 2015-16 for implementing the Mission.

HORTICULTURE

A total amount of Rs.31000.00 lakh is provided in the budget 2015-16 towards implementation of various activities under Horticulture. Of which Rs.10000.00 lakhs as Centrally Assisted State Plan Schemes and Rs.21000.00 lakhs as State Schemes.

Horticulture is a significant and upcoming sector in the country and the state as well. Horticulture has proved to be the best diversification option for agricultural land use, because of assured and the remunerative returns to the farmers. This sub sector of the Agriculture sector, with its consistently growing contribution to the GSDP has started gaining ground in the recent past. Horticulture over the years has emerged as an indispensable part of Agriculture providing opportunities for sustaining large number of

agro-industries which have created employment opportunities to semi-skilled and unskilled labour force.

Technological innovations have helped Horticulture sector empower people not only by improving economic conditions of those subsisting on it but also catering to their nutritional security that eventually is transforming agrarian economy. The fact that horticulture has moved from rural areas to a commercial activity which has encouraged private investment is one of the most significant development in the last decade. Transition from traditional outlook to a trade oriented outlook has brought a perceptible change in the concept of Horticulture development in the state. The Government of Andhra Pradesh has emphasized Horticulture development in view of increased public investment in the sector. The focus in recent years has been on increasing production and productivity of horticulture crops, development of infrastructure for post harvest management and providing access to domestic and export markets. Horticulture has been identified as one of the “focus areas” for development of the state.

Andhra Pradesh ranks 1st in the production of Oil Palm, Tomato, Chillies, Turmeric and Mango; 2nd in the production of Loose Flowers in India; (NHB data base 2013). The area under Horticulture has been increased from 3.70 lakh ha. in 1982 in Combined Andhra Pradesh to 16.26 lakh ha. in residuary Andhra Pradesh by 2013-14 and as per advance estimates it stood at 17.57 lakh ha. in 2014-15.

STATE SCHEMES

PROMOTION OF HORTICULTURE ACTIVITIES:

Under state plan schemes, the Horticulture department made considerable efforts to bring new area in to cultivation. The interventions include area expansion of root & tuber crops, flowers, pre & post harvest management activities like supply of plastic crates and poly sheets to help the farmers for better harvesting of produce. Awareness programmes are also planned in a big way to create awareness and latest technologies to the Horticulture farmers.

An amount of Rs. 21000.00 lakh is provided in the budget 2015-16.

CENTRALLY ASSISTED STATE PLAN SCHEMES

NATIONAL HORTICULTURE MISSION (MISSION FOR INTEGRATED DEVELOPMENT OF HORTICULTURE (MIDH)):

The Cabinet Committee on Economic Affairs (CCEA) has approved the implementation of Mission for Integrated Development of Horticulture (MIDH) during XII plan period (subsuming interventions under NHM, HMNEH, NBM, NHB, CDB & CIH) with revised cost norms and pattern of assistance to be effective from April 1st 2014. MIDH will also work closely with National Mission on Sustainable Agriculture (NMSA) towards development of Micro-Irrigation for all Horticulture crops and protected cultivation on farmers' field.

The important interventions are area expansion programmes for Horticulture crops, rejuvenation of old and senile orchards in the traditional area of the state (restricting mainly to canopy management), protected cultivation of Flowers & Vegetables, assistance for green houses and Plant Material etc.

There is an enormous increase in production & productivity of fruits, vegetables, spices & flowers. Around 30-35% of horticultural produce is being wasted due to improper post harvest management. To avoid the post harvest losses, a chain of cold storages, processing facilities, and marketing facilities need to be created. To save the valuable Horticulture produce from post harvest losses, the Department is promoting large no. of Multi chambered, Cold Storage units, Ripening Chambers, Refer vans, Pack houses, with the financial assistance of National Horticulture Mission during 12th year plan.

Cold Storage unit provide a vital link between the production and marketing of Agriculture & Horticulture produce. It helps in storing the horticulture produce during glut, and making them available in off season with least degradation in quality.

Ripening chambers are used especially for Mango & Banana for ethylene treatment for uniform ripening of fruits instead of ripening of fruits by using carbide which is poisonous. Pack Houses are mainly used for all Horticulture produce for pre-cooling, grading, packing and transport to mandis to reduce post harvest losses and to increase value addition. Size of each pack house should be 600 cft the unit cost is 4 lakhs, 50% (2.0 Lakhs) subsidy will be given to the Horticulture growers.

The important interventions under the Post Harvest Management are establishment of cold storages for fruits & vegetables that are readily stored under cold storages are potato, grapes, tamarind, citrus, pomegranate, pine apple, chillies, apple and cut flowers etc., establishment of ripening chambers, pack houses etc.

An amount of Rs. 10000.00 lakhs is provided in the budget 2015-16.

ANIMAL HUSBANDRY

Animal Husbandry being an important sub-sector to Agriculture is rapidly making inroads to the rural economy. Livestock sector apart from contributing to the state economy in general and to agricultural economy in particular, also provides employment generation opportunities, asset creation, coping mechanism against crop failure and social and financial security. Livestock is the main source of animal protein for the population.

Economic support programs like distribution of milch animals, sheep and poultry units have enormously helped the rural masses in bridging their income gaps. Besides conserving domestic biodiversity, it is a means of producing food in dry lands without depleting ground water resources. Dependability even during drought times is one aspect that makes the Livestock sub-sector more lucrative and progressive.

The activities of the Animal Husbandry department have been oriented towards health of livestock and increased production of milk, meat and eggs and to provide adequate bullock power for agricultural operations. The schemes of the Animal Husbandry department have been formulated in pursuance to the well-laid National policies to improve the Livestock production, to fight protein hunger and to improve nutritional standards of human population and also provide technical support for the maintenance and improvement of livestock.

A total amount of Rs. 18300.00 lakh is provided in the budget 2015-16 towards implementation of various activities under the Animal Husbandry department. Out of which, Rs. 5000.00 lakhs is provided under RIDF, Rs. 1500.00 lakhs is under Centrally Assisted State Plan Schemes and Rs. 11800.00 lakhs is under State Schemes.

RIDF:

INFRASTRUCTURE SUPPORT TO FIELD VETERINARY INSTITUTIONS:

The department has taken up construction of new veterinary institutional buildings along with necessary equipment under RIDF XVIII and XIX. They will be constructed in place of existing buildings that are in dilapidated condition and where there are no buildings for veterinary institution. Buildings proposed to be constructed include Veterinary Polyclinic, Veterinary Hospital, Veterinary Dispensary, Rural Livestock Unit, Gopalamithra Service Centers, DFSD, Constitution Level Disease Diagnostic & Training Centers, R&D on Blue Tongue and Foot Rot, Mobile Slaughter Unit etc.

An amount of Rs 5000.00 lakh is provided in the budget 2015-16.

STATE SCHEMES

FODDER AND FEED DEVELOPMENT:

The objective of the scheme is to increase fodder production through supply of fodder seed/buy back method /Hydroponics (10 units per districts for 4 districts@30000 unit), post harvest technology (complete feed mixing plants 3 Nos @ Rs.4-5 Lakh per unit) / waste farm land utilization(5000 acres) through PPP.

Creating Fodder Banks for fodder storage facilities in a scientific manner to supply fodder in scarcity periods to deficit districts.

Increasing feed through new feed mixing plants of larger capacity in each region for 3 regions in PPP to improve the quality of feed & increase in availability of feed

Increasing Productivity of milch animals i.e Ksheerasagar through APDDCF/ private collaboration in PPP

An amount of Rs. 4140.80 lakh is provided in the budget 2015-16.

ARTIFICIAL INSEMINATION CENTERS:

Due to vast geographical area of the state, the department alone cannot provide breeding service facilities to the entire breedable livestock population. In order to improve the breeding operations in the uncovered areas of the state the department has established 500 Integrated Livestock development centres (ILD) with the assistance of JK Trust Gram Vikas Yojana.

An amount of Rs 1020.00 lakh is provided in the budget 2015-16 to clear the pending claims of JK Trust.

If self-help groups /individual are provided with high yielding milch animals/ heifers on 50 % subsidy basis, this will further enable them to generate regular and needy income apart from nutritional supplementation. Further, in order to bring up the ST beneficiaries from BPL status they are provided with high yielding milch animals on subsidy basis. The schemes mentioned under Livestock development programmes are inter-changeable based on the need of the farmers.

This will facilitate proper fetal care calving, and increase in milk production after calving. This will also help to maintain normal reproductive health care and cycle to reduce the inter calving periods. The implementation guidelines will be formulated in consultation with the field vets and stake holders

EXTENSION AND TRAINING

Training will be provided to the farmers who are engaged in livestock rearing activities under the programme. Awareness on latest Animal Husbandry practices on feeding, breeding and management through audio visual aids and exposure visits.

down the feeding cost on unproductive animals. Further the farmers can plan to get a calf in year to get maximum calves per animal in her productive life.

SUPPLY OF CALF FEED PROGRAMME:

Every year, a good number of high productive calves are being produced through artificial insemination. But due to financial constraints, farmers are unable to rear the female calves properly and convert them into productive livestock. In the late 70's and early 80's, there was calf feed subsidy programmes under Special Livestock Breeding Programme (SLBP) in which calf feed was given on subsidy basis to the farmers who possess high productive female calves. This had given good impetus in creating milch animal replacement stock. The benefits accrued out of calf rearing programme will be in terms of the asset creation and future breeding stock for the SC families.
