The Titanic is in its watery grave. It is a great museum of human history and is at risk of being lost forever because of curious voyagers and treasure hunters, fears Bob Ballard, who first discovered the remains of the iconic ship in 1985. Famous for discovering the great ship, Ballard is a former US Navy Officer and a professor of oceanography. He presented a documentary called "Save the Titanic" on the 100th anniversary of the sinking of the great ship - April 15, 1912. The ship and her fate continue to fascinate, largely because of the horror that took place that night, with 1,522 passengers and crew losing their lives. Ballard says, "The story has all the ingredients to

make it timelessly fascinating. You have this revolutionary ship that's unsinkable and carrying a cross section of people in society. And then it goes and hits an iceberg and sinks on its maiden journey. It's an irony personified in history."

Yoga is good for the mind and body. Regular practice of yoga helps people to improve their balance and stamina. Although you won't really get out of breath, like you might playing football or running, it does help to keep your heart healthy and you can lose weight. It can also help with back pain.

The breathing taught in yoga can help people to reduce stress and anxiety. There are lots of different possible breathing patterns you can do. Yoga also improves concentration and helps people to sleep better, so it's great for anyone who's under pressure at work or in their studies.

There are lots of different types of yoga, so you can choose what suits you best. Hatha Yoga is often good for beginners, because you hold each position for a few breaths. In Vinyasa Yoga, you change position much more quickly and you might get out of breath. It's quite challenging if you haven't done much yoga before. Bikram Yoga is sometimes called 'hot yoga', because the room must be heated to around 40 degrees. As well as these and other more traditional forms of yoga, there are also some more unusual modern forms of yoga. For example, you might enjoy 'laughter yoga', where people debreathing exercises and laugh about nothing in particular - laughing is very good for your health. Or what about 'Aeroyoga', where you do yoga while you are hanging from the ceiling? It's supposed to be very good for your back. Or Doga', where you do yoga together with your pet dog?

Whatever kind of yoga you choose, there are definitely some health benefits, and you should have fun too.
